

INTRODUCING...

The screenshot shows the website header for The University of Rhode Island. It includes the university logo, a search bar, and the title "RI NATIVE PLANT GUIDE" from the College of the Environment and Life Sciences. A large image of a monarch butterfly on purple flowers is featured. Below the image is a search and filter interface with a search box containing "scientific or common name" and dropdown menus for Type (T), Exposure, Moisture, Wildlife, and Uses, all set to "All". There are also checkboxes for Coastal (CT) and Rhody Native™ (RN).

SEARCH: OVER 350 SPECIES NATIVE TO RI

CREATE: LISTS BASED ON DESIRED ATTRIBUTES

FIND: WHERE PLANTS ARE AVAILABLE LOCALLY
