

## Pesticide Safety and IPM Training

**Private Certification:** if you produce an agricultural commodity such as vegetable, fruit, turf or nursery and apply “restricted use” pesticides to control pests.

**Commercial License:** if you work for hire applying “general use” pesticides to control pests.

**Commercial Certification:** if you work for hire and apply “restricted use” pesticides to control pests.

**Pesticide Dealer:** if you sell “restricted use” pesticides.

**Training Requirements:** All applicators listed above are required to attend the core training which consists of 2 days with an exam in the afternoon of the second day. Individuals that would like to become commercially certified are required to attend category training in their specialty area.

***Preregistration is required by mail. Use the registration form. Call Margaret Siligato if you need a confirmation.***
