

RI APA Brown Bag
RI Community Resource Maps
 January 24, 2013
Summary of Survey Results

Out of 28 attendees, 17 returned a complete survey, a 60% response rate. The respondents felt that the workshop met their goals and that the information presented will be useful to them. There was a great deal of interest in lab training with computer exercises.

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree	Mean
4. This workshop was relevant and practical for my work	0.0%	0.0%	5.9%	47.1%	47.1%	4.41
5. I plan to use the Map Gallery Maps	0%	5.9%	5.9%	58.8%	29.4%	4.12
6. I plan to use the maps in ArcGIS Map Viewer or Explorer	0%	0%	17.6%	52.9%	29.4%	4.12
7. I plan to share the information I learned with others.	0%	5.9%	5.9%	58.8%	29.4%	4.12

8. What suggestions do you have for training future training in using the maps?

Municipality:

- Don't know yet
- I feel strongly that a training session in a computer lab or in which participants are allowed to bring a laptop and internet connection is provided would be an order of magnitude more helpful. We will all learn and remember a lot more if we are able to play along in ArcGIS online ourselves as the lesson is being taught. The pure lecture format is much less effective as a teaching method when step by step computer processes are being taught.
- Slow down
- Go slower and provide more tables
- A lab
- Interactive session where we bring laptops and follow along to create projects with an instructor.
- Good job!

All other:

- Would be more useful to hold the training/seminar in a computer lab where everyone would work step by step through an assignment.
- Poll members prior to meeting for specific examples to run through.

9. Do you expect to use the map services shown today? If so, for what purpose?

Municipal:

- Yes. For planning application – to find additional info or for planning purposes like for Land Trust Property, etc.
- Yes, CDBG applications, other grant applications, development review, producing maps for public meetings or for conclusion in comp plan.
- As soon as I learn how to navigate the sites efficiently, the information all in one place would be very helpful for concept review of subdivisions and land development projects.
- Will play with and see
- CDBG
- Not same, I have a good gis data set.

All other:

- Reviser permits
- Yes, explore available data sets

10. What do you **like** or **dislike** about the about the map services? Any general comments, specific improvements, coverages needed, etc. are welcome.

Municipal:

- Don't know yet, haven't used long enough to know.
- I'm not familiar with the map services yet to know what I like or dislike.
- Don't know yet
- Good – (???) comprehensive
Bad – Hard to print

All other:

- Bedrock coverage and depth to groundwater

11. Are you interested in scheduling a workshop in your town for board /commission members, staff, or other groups? If so, please include your contact information.

Municipal:

- I will check with my board
- Not at this time
- Not yet

All other:

- Thank you
