A new, **one day** workshop is offered this summer for RIDOT employees and RIDOT consultants who are responsible for design of transportation projects. Municipal Public Works supervisors and engineers involved in roadway design or permit review will also find this useful.

Linear transportation projects present unique challenges for design of stormwater management systems, especially when applying new LID standards within a limited right of way. This workshop will focus on using the new RI Stormwater Design and Installation Standards Manual to design typical projects RIDOT engineers are expected to encounter regularly. The morning session will provide an overview of the new stormwater manual. In the afternoon, case studies of current RIDOT projects will provide practice exercises for applying the new standards. Case study examples will include road re-surfacing, sidewalk replacement and road re-design.

**Date:** July 13 or August 25 (*this is a one day workshop with two opportunities to register)

**Registration:** 7:30 am  
**Time:** 8:00 am - 4:00 pm  
**Location:** RIDOT Training Center, 360 Lincoln Avenue, Warwick, RI

*Please bring a brown bag lunch or plan to purchase lunch at a nearby restaurant*

**Cost:** FREE, but registration is required. Early registration closes June 23. Final registration June 30.

To provide for active participation and discussion, class size is limited to a maximum of 40, *each session*. Priority will be given first to RIDOT staff and then to RIDOT consultants, with a limited number of seats reserved for MS4 staff. Municipalities are strongly encouraged to register only one staff person for this training. Additional staff may be placed on a waiting list. *In order to secure a space in this workshop, we encourage you to register early.*

**Presenters:** Training will be conducted by the Horsley Witten Group, authors of the RI Stormwater Design and Installation Standards Manual and guidance documents related to highway stormwater management, including the 2005 New York DOT guide, Stormwater Management Planning Guidance for Transportation Projects.

*Please be sure to bring your copy of the RI Stormwater Design and Installation Standards Manual to the workshop.*

**Registration links, agenda, and directions are located at:** [http://www.uri.edu/ce/wq/NEMO/Workshops-Support/index.htm](http://www.uri.edu/ce/wq/NEMO/Workshops-Support/index.htm)

*This event is co-sponsored by the Rhode Island T2 Center.*

*This workshop is funded by the Rhode Island Department of Transportation in partnership with the Rhode Island Department of Environmental Management and URI Cooperative Extension.*
